Subject: RE: 404 Permit for BNSF

dear mr. marx...my name is sherri hughes and i live in edgerton, ks. i have recently been diagnosed with auto immune disease regarding my lungs and to bring the BNSF intermodal railyard to our area is screaming disaster for me and my family...they are also susceptible with the same lung problems that i have...i am very concerned about this...the warehouses are supposed to be going in right across the street from where i live...we will NEVER be able to sale our home...i'm chalking this up as a death sentence for me and my family if this comes to our area...i have three young teen-age boys that will be driving the same roads as all the truck traffic we will have in our area...

please hear our pleas and take this disastrous health risk somewhere else...

thank you for your time...

sincerely,

sherri hughes
edgerton, ks
